

Werk-Brau manufactures a complete line of O.E.M. and replacement attachments for excavators, mini excavators, backhoes, mini and full size loaders and crawler loaders. All over the world Werk-Brau attachments can be found hard at work in the toughest of conditions.

Loader Coupler

Features

High strength steel is used throughout the unit

Connecting pins are hard chrome for wear and corrosion resistance

A removable guard protects dual-acting hydraulic cylinder and fittings

Open design provides maximum visibility while mounting to various attachments

Coupler includes installation and operating manual with a parts list

Designed to quickly and easily change from one attachment to another without the operator leaving the cab. Coupler enables the operator to utilize various attachments on a single job. Werk-Brau offers four different styles of couplers to meet any preference or need.
