

Discover the EC02 Basic - one of the smallest and most compact tiltrotator on the market, perfect for machines up to 3 tonnes

You get unrivalled access and flexibility that only a tiltrotator can provide. Whatever the terrain or working conditions, the EC02 Basic gives you precision and control with unlimited rotation and $\pm 40^\circ$ tilt.

For those who prefer simplicity, EC02 Basic does not require an advanced control system. It works directly with the excavator's own systems, making installation and operation easier than ever. Mechanical quick coupler included.

If you're not sure what a tiltrotator can do, this is the perfect entry-level model for you. You get all the basic functions and you will notice a difference in your work. A solution that not only simplifies your everyday life, but also gives you more time and productivity in every project.

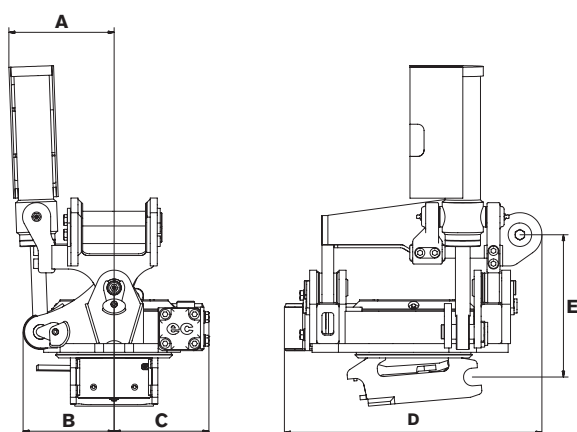

If you want more features and more freedom, we have other models for machines up to 33 tonnes.

Specifications

Type	EC02 Basic
Width A: (inches)*	7.1
Width B: (inches)*	6.1
Width C: (inches)*	6.3
Length overall D: (inches)*	17.1
Construction height E: (inches)*	from 9.6
Weight: (lbs)*	172
Tilt:	2x40°
Rec. hydraulic flow tilt/rotation: (gpm)	1.8/5.3
Max hydraulic pressure: (psi)	3,200
Mechanical hitch	S30
Max bucket width rec. by engcon: (inches)	35.4
Max breakout torque: (lbf)	14,751
Base machine weight: (lbs)	3,300–6,600
