

Our EC204 Basic is a great tiltrotator, perfect for machines up to 4 metric tons.

You get unrivalled access and flexibility that only a tiltrotator can provide. Whatever the terrain or working conditions, the EC204 Basic* gives you precision and control with unlimited rotation and $\pm 45^\circ$ tilt.

For those who prefer simplicity, EC204 Basic does not require an advanced control system. It works directly with the excavator's own systems, making installation and operation easier than ever. Mechanical quick coupler underneath is included.

You get all the basic functions and you will notice a difference in your work. A solution that not only simplifies your everyday life, but also gives you more time and productivity in every project.

If you want more features and more freedom, we have other models for machines up to 33 metric tons.

** Don't confuse this with our regular EC204 which comes with a complete EC-Oil system from the start.*

Specifications

Type	EC204 Basic
Width A: (inch)*	11
Width B: (inch)*	6.3
Width C: (inch)*	6.7
Length overall D: (inch)*	18.2
Construction height E: (inch)*	from 12.2
Weight: (lbs)*	242
Tilt:	2x45°
Rec. hydraulic flow tilt/rotation: (gpm)	2.6/6.6
Max hydraulic pressure: (psi)	3,200
Mechanical hitch	S40
Max bucket width rec. by engcon: (inch)	39.4
Max breakout torque: (lbf)	20,000
Base machine weight: (lbs)	4,400–8,800

**Standard attachment*
