ALUMINUM END-DUMP TRAILER LINES

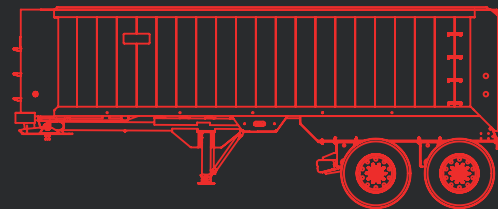

Frameless

LIGHTWEIGHT &
EFFICIENT

Our aluminum frameless trailers are built to maximize payload while keeping overall trailer weight down. Available in multiple lengths for a range of hauling applications, they combine lightweight efficiency, dependable performance, and the capacity to move more material with less trailer weight.

Frameless Specs

- 24' to 39' long
- Box tubs
- 96" to 102" width
- 60" to 72" wall height
- Smooth Side Double Walled Panels
- Top Hinge or combo gate options

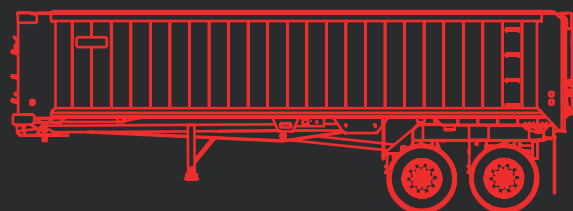

Quarter-Frame

VERSATILE &
DURABLE

Our aluminum quarter-frame trailers pair a lightweight aluminum tub with a steel quarter frame for added support where it matters most. The combination delivers a strong balance of payload efficiency, durability, and versatility for operators hauling across a wide range of applications.

Quarter-Frame Specs

- 26' to 30' long
- Box Tubs
- 96" width
- 54" to 60" wall height
- Smooth Side Double Walled Panels
- Top Hinge or combo gate options

Full Frame

STRONG &
STABLE

Our aluminum full-frame trailers offer added strength and stability while keeping weight down. Designed for heavier-duty jobs, they strike a balance between durability and payload efficiency—perfect for a range of hauling needs.

Full Frame Specs

- 24' to 38' long
- Box Tubs
- 96" to 102" width
- 60" to 78" wall height
- Smooth Side Double Walled Panels
- Top Hinge or combo gate options
- Tandem, Tri, or Quad axle
